

The **Unlimited** Learning Revolution

with
Dr Jeannette Vos

"We are now making the impossible possible."

– Hans Hakenson, Telenor, Norway
(Learning Revolution participant)

3-Day High Performance, Action-Packed Workshops

Through the latest brain/mind/health research and instructional design technology, the **Learning Revolution workshop series** meets the needs of the globally-minded yet whole-person learner.

Join Jeannette in discovering how to become more learning, thinking, teaching & healthy fit with strategies that are immediately applicable to your personal or professional life, so that you and your learners can truly co-create your own future, with HIGH PERFORMANCE standards and take responsibility for it.

Benefits

for You and Your learners

- Learn how to train and feed the brain to do expert thinking, complex communication, problem solve, innovate, and literally -- design ones own future.
- Learn how to remove stress, unlearn (what no longer serves you), to move forward into the Conceptual Age.
- Save time! Cut your training or study time in half.
- Create a culture of harmony, teamwork, innovation, values and responsibility to achieve goals and objectives.
- Discover the 7 abilities that are essential for professional and personal fulfilment - and how to master them.
- Become truly 'learning and thinking fit' so your time and money investment counts. And evaluate with purpose.
- Bypass minimum standards! Accelerate learning, build critical high performance thinking and creating skills.
- Design, facilitate, teach and manage more effectively.
- Learn and retain any information (including another language) more quickly and easily.
- Manage stress, evaluations, change and challenging situations more efficiently to conquer today's challenges.
- Run your own brain instead of letting others do it for you.

Who Should Attend?

- Anyone who wants to accelerate and maximize their learning potential.
- Anyone who wants to train or sell to the brain or learn a new language easily.
- Trainers, Human Resource Management & Business Professionals who want to be more effective in the workplace.
- Educational Leaders, Staff Developers & Teachers, Health Specialists.
- Students & Home School Parents.

Learning, Creating & Thinking Fitness at its Finest

Presented by Dr Jeannette Vos

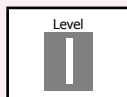

Dr. Jeannette Vos has international fame as an author, accelerated learning expert, keynote speaker, educator, certified health/nutrition professional (incl. raw food chef) and brain/mind researcher for optimal performance. Thus coaching and teaching people to be their best with learning, thinking, health, life skills, and co-creating their own future is her forte.

Her specialty is training the "whole person" for high performance and well-being in all dimensions: mental, physical, emotional, social and spiritual. She has trained thousands of people in accelerated learning. Having been a classroom teacher, university professor and international workshop facilitator for businesses, education and health, she has taught people at all age levels to become more brain-fit. Jeannette is a person who walks her talk. She literally demonstrates BOTH the art and science of selling-to-the brain.

Her coauthored book, **The Learning Revolution**, became a literary sensation internationally. Now the sequel is here – **Unlimited: The new learning revolution and the seven keys to unlock it.**

Dr. Vos, pioneer and leader in ways to accelerate learning and improve teaching, captivates audiences in a very "hands on" approach. Her expertise in how to use music and nutrition to accelerate learning for high achievement comes as an extra bonus.

2 Workshops Tailored To Fit Your Needs

Level 1: Experience level Accelerate Your Learning for the Conceptual Age

Make the discoveries of brain/mind/body/spirit and health research applicable to all areas of your life and gain the meta-skills to help learners integrate and synthesize new learning into their personal or professional lives. This module (beginning level) has 2 three-day workshops - recommended to be taken in sequence.

Workshop 1 (July 13-15, 2011)

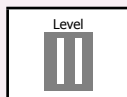

The Power of Accelerated/Integrative/Conceptual Learning

Master the skills to achieve higher standards for you and your learners, manage stress, learn to learn or unlearn, think and create in optimal ways to maximize full potential.

Workshop 2 (July 18-20, 2011)

Breaking the Learning Barriers

Experience the secrets of how to grapple with resistance and "break the learning blocks," achieve higher confidence and performance while applying life skills to accelerate your learning, thinking, creating, teaching, and "selling"

Level 2: Process level (Train-the-Trainer) Uncover the Dynamics of the Learning Process

This level is for those who have already taken the Experience Level. So here is the opportunity to "Go behind the scenes" of accelerated learning by repeating Workshop 1 and 2, but this time, observing mainly the subliminals and dynamics of the process. Thus the outcomes in Level II are different even though some of the same course material from Level I is covered in this workshop. Both levels are being taught simultaneously. The main role of participants here is to be observers of the non-direct and unconscious communication within the class. Level II participants delve into deeper personal development, non-verbal body language, group dynamics, and releasing barriers to accelerate learning. This level includes an extra 90 minutes of class time.

Duration: Each workshop, 3 days (recommended to be taken in sequence)

Prerequisite: Level I
